

**WEEKLY UPDATE**  
**September 10, 2020**

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. We are happy to report that, as of today, we have no confirmed cases of COVID-19 in our facility.

We are committed to keeping the number of positive cases in our facility at zero. However, we recognize this is an extremely contagious virus and we must remain vigilant in practicing the enhanced safety precautions.

In our home we have employees that directly impact the well-being of the residents. Nurses and aides maintain the residents' literal health, food service keeps everyone fed, and administration makes sure those jobs are done for the well-being of all residents. But the unrecognized heroes of the residents' health are actually the housekeeping workers.

The truth is, housekeeping plays just as vital a role as anyone else in our nursing home. The number one method of disease prevention is performing regular deep cleaning on a daily basis to ensure that all high touch surface is wiped down at least every two hours, keeping everything clean, which is a function of housekeeping. The housekeeping staff is on the frontline, keeping residents healthy. Clean furniture, bedding, and floors all play an important role in keeping residents and workers healthy.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (806) 675-2342.

Sincerely,

*Martha Ruiz, LNFA*
